Scandinavian floors at it's best

The SAGA Nordic is a range of high quality floors that have won "best in test" for it's superb wearability and resistance to staining. The click systems used in these wood floor are at the forefront in the constant evolving technology of making the laying process as easy and smooth as possible. The best of Scandinavian wood oils and varnishes are used together with skilled brushing techniques to add durability.

SAGA Nordic

SAGA Nordic is a new collection of wooden floors produced in the traditional Scandinavian high quality. The range is inspired by the beautiful and ruthless Nordic nature. Rustic, smooth, dramatic and full of textures and character. In the Nordic floor range you will find unique wooden floors to enhance your home and express your personal taste. Deep, visible furrows and grains, brushed, smoked and stained in different shades – all inspired by the Nordic nature.

SAGA Exclusive Nordic Ash

Traditional oak

Grand oak trees have had a central place in both Nordic culture and religion for thousands of years. Oak represents strength and endurance. With its beautiful structure and colour it has become the most popular type of wood for floors. In this SAGA wood floor range you will find a variety of different treatments and wooden structures to choose from.
